

Michael D. Remington, P.E.
President

EXPERIENCE

Michael Remington has been employed as a Civil Engineer with Inspec since 1988, serving as project engineer on hundreds of pavement and athletic facility assignments nationwide and is responsible for field evaluations, data collection, supervision of project plans and specifications, construction administration services, project material submittal review and approval, construction observation, and quality control testing. As President, Mr. Remington oversees the operations of Inspec's three offices. He has served as an expert witness in several legal cases for pavement-related issues and frequently gives technical presentations for trade associations and at university venues.

Mr. Remington has also served as lead engineer on over one hundred exterior wall evaluation and design projects.
